New York College of Podiatric Medicine
Sidney Druskin Memorial Library
2017 Student Authors’ Bibliography
Author Recognition Event
April 3, 2018
April 3, 2018

Dear Members of the NYCPM Student Body:

To my continuing amazement and delight, some of our very busy students find the time to delve deeper into a topic that intrigues them, and they investigate and write about the causes, prevention and treatment of diseases and physical problems of the lower extremity, generating articles and research posters that transmit the knowledge they have gained for dissemination within the profession and beyond.

This is the fourth compilation of published student writing produced by NYCPM. I could not be more proud of the achievements signaled by this newest compendium, and by its greater significance; it not only indicates impressive levels of professional curiosity and knowledge, but points to ongoing accomplishments as these student authors become residents and then practicing doctors of podiatric medicine. There are 13 distinct citations in this bibliography, out of a total of 39 citations, representing 31 student authors.

NYCPM is dedicated to providing the highest quality instruction for future doctors of podiatric medicine as well as to outstanding care of the lower extremity in clinical practice in the FCNY. This bibliography attests to our continued position on the cutting edge of scholarship within our field.

Sincerely,

Louis L. Levine, M.A., L.H.D., C.S.W.
President & Chief Executive Officer

Dear Students of the NYCPM Community,

Research and publications within the medical and scientific community are an indelible mark for all time to come, not only for the individual making them but equally important for the academic institution they hail from.

The New York College of Podiatric Medicine is extremely proud of contributions made by its faculty and students to the medical literature and knowledge base, and properly wishes to acknowledge them at this Awards Ceremony.

Your endeavor not only provides others with useful information, but also demonstrates your passion and thirst to discover and report new and meaningful thoughts, concepts and facts to improve the human condition.

We proudly salute you with a great sense of pride and admiration.

I would also like to give special thanks to and Paul Tremblay for compiling this year’s list.

With very best wishes,

Michael J. Trepal, DPM
VP for Academic Affairs and Dean

Dear Colleagues,

The Library is privileged and honored to join in the recognition and celebration of NYCPM academic publishing. While compiling the citations, we had the opportunity to appreciate the depth and scope of scholarly contributions our Faculty and students produced last year; it was a truly humbling experience. We are proud to be part of an institution that recognizes research and publication as vital to the educational process as well as to the advancement of knowledge.

Library staff began this process by requesting citations for work published in 2017. Criteria to be met were simple enough: the work had to be either a scientific paper in a peer-reviewed journal, a book or a book chapter, or a scholarly communication such as conference presentation or poster. Affiliation to the College had to be clearly expressed.

If a paper has been authored by multiple NYCPM student researchers, the item is repeated throughout the bibliography, hence the total of 39 citations. Taking redundancy into account, we have 13 distinct citations of works authored by 31 researchers in the Student Bibliography.

For your convenience we have added links to most citations publishers’ page. Many of them are available in full-text format, but most offer only their online abstracts due to licensing restrictions. When available and appropriate, the PMID or PMCID is mentioned and linked. Should you wish to obtain the full-text of such citations, do not hesitate to contact library staff. Presentations have been linked to their conference websites when available.

Our warmest and most respectful congratulations to the NYCPM student research community.

Sincerely Yours,

Paul Tremblay, MLIS, MA
Chief Medical Librarian
